The Great Scrape

Personalized Woody Paddle

Preparing food on the barbeque requires fewer pots and pans than oven baking or cooking on a stovetop. But that doesn't mean that you can wash your hands of clean up duty. Now, there's a safe, simple way to avoid charred debris and buildup on the grates of your grill.

After accidentally ingesting wire from a metal grill cleaner, Andy Stadick teamed up with his brother and fellow grill guy Nathan Thompson to create an all-natural solution. Made in the USA of solid hardwood coated with a non-toxic, food safe mineral oil, the Great Scrape cleaner actually molds to your barbeque grates forming grooves customized specifically to your grill.

Not too big and not too small, the Woody Paddle is ergonomically designed to fit comfortably in the palm of your hand. It's long enough to keep your hands away from the heat, but compact enough for everyday use.
