THE GROMMET®

This restaurant-quality oven has been in high demand and will be on its way to you soon. We think you'll agree it's worth the wait.

**Uuni**

*Wood Pellet Pizza Oven*

Get the doughy, delicious artisanal pizza from your favorite restaurant—in your backyard. This outdoor pizza oven creates authentic, wood-fired dishes right at home, fast.

Maker Kristian Tapaninaho honed his pizza recipe but couldn't get that sought-after smoky flavor in his own kitchen. After searching in vain for an affordable and portable wood firing solution, he made his own.

Uuni is a powerhouse. It reaches 900+ degrees in just under 10 minutes. Fueled by cost-efficient wood pellets, the stone baking board gives the pizza a perfectly crisp finish in under two minutes. Plus, its stainless steel body is made to keep up with years of pie-making.
