

# Keyport Modules & Inserts

**Locator and LED Module:** Pop a locator into your Keyport multi-tool keychain. It fits neatly in the streamlined Keyport and syncs to a free app to alert you when your keys leave the 75-foot range. If it's outside this range, it'll crowdsource. You'll get the location when someone with a tracker passes by. The locator works the other way around, too. Lost your phone? Press a button on the locator to make it ring.

- Materials: Polycarbonate and 2 replaceable cr1220 batteries
- Bluetooth low-energy locator and 6-lumen LED module with TrackR technology
- Illuminates keyway in the dark
- 75 ft. range allows you to find your Keyport using your smartphone to make your locator ring when it's nearby but out of sight
- If you lose your phone, press the button on your locator module to force your phone to ring (even on silent mode)
- When out of range, the TrackR's crowd locator network enables you to recover lost or stolen items with location updates when another user walks by your missing item. Once item is noted as missing in the system, any TrackR device that comes within range will pick up the coordinates and send an alert with a map to your phone
- The TrackR app includes an electronic tether. If you walk away from your Keyport, your phone will ring
- Free TrackR app compatible with iPhone 4s and later models, iPad with retina display and later, and Android 4.4 and later models with Bluetooth 4.0
- Made in China
- Dimensions: 2.87" x 0.60" x 0.27"
- Weight: 0.04 lb.

**Mini Flashlight Module:** Pop a flashlight into your Keyport multi-tool keychain. It fits neatly in the streamlined Keyport so you can always carry it with you.

- Materials: Polycarbonate and 2 replaceable CR1220 batteries
- 12 lumen maximum output  
Made in China
- Dimensions: 2.87" x 0.60" x 0.27"
