AQUATIC USAGE: DO NOT LEAVE BARNACLE IN WATER LONGER THAN 60 MINUTES

CONTROL YOUR CREATURE
STANDARD BUTTON CONFIGURATIONS

1) **THIS BUTTON HAS A DOUBLE FUNCTION!**
   If you give this button a quick click it will play back the previous song. However, if you hold this button down it will turn down the volume.

2) **PLAY/PAUSE**
   Push to play, push once more to pause the groove.

3) **ANOTHER DOUBLE UP**
   Give this button a quick click and it will play the next track. However, if you hold this button down it will turn up the volume. (potentially increasing good vibes and overall happiness)

4) **ON/OFF**
   - Give a solid couple second hold down to turn on (you will be greeted with the sounds of Aloha)
   - Hold down this button once more to power off. (Aloha also means goodbye)

5) **CHARGING PORT/COMPUTER PLUG IN**
   Insert 2.5mm cord into here
   - Make sure the flap is always secured when using the speaker in water.

6) **MICROPHONE**
   This is the Microphone, which makes it all possible for taking hands-free phone calls.
Greetings from SPEAQUA Headquarters in San Diego, CA- and thank you for purchasing The Barnacle!

**INSPIRED BY A CULTURAL COLLECTIVE CRAFTED BY SURFERS**

**FOR THE MUSIC THAT TURNS YOU ON AND TUNES YOU IN**

Built with purpose- Our team has mindfully incorporated various pretty rad & unique features that we think you can all appreciate. We are sure you will be able to figure out how to use this speaker without reading these directions, but incase you get a bit lost- Take a quick read:

**CHARGING:**
Charging the barnacle is real easy. We have enclosed a USB charging cord, which you can plug into a wall outlet or your computer. The battery is re-chargeable, and allows for up to 5 hours of jamming.
*Wall outlet- you will need to find a power cord with a micro USB or a USB AC adapter. This includes the one typically used for your cell phone.
*Computer- Simply plug the USB end of the cord into your computer

**BLUETOOTH CONNECTIVITY: TURN ON, TUNE IN, AND GET LOST**
You guys should be frothing on Bluetooth technology. No wires, no worries. The Barnacle uses Bluetooth 2.0, which allows your device to be as far as 10 meters (33 feet) away.

**HOW BLUETOOTH TECHNOLOGY WORKS?**
Naturally, you will have to use a smartphone, tablet, or computer which has Bluetooth capabilities.
1)Once you bring your Barnacle to life you will see a blinking blue light, this means you’re ready to connect.
2)You will then have to search the Bluetooth settings on your device for “The Barnacle”. Select/Connect- Then you are cruising.
3)You should only have to do this once. As long as the speaker and your device have Bluetooth turned on, they will automatically connect. Smart Devices have a good memory.

Note: In order to cut off the Bluetooth connection, give the play/pause button a couple second hold down (there will be a sound to notify you that the connection has been disabled)

**SPEAKER PHONE:**
As if you were not on your phone enough, we made it possible to take hands free calls using The Barnacle. We have found this to be real useful for not missing a call while in the shower. We also encourage you to put down your cell phone while in the car. The barnacle can be used as a safer way to take phone calls while driving.

**HOW IT WORKS?**
•When receiving a phone call your music will be paused.
•A voice will annunciate the phone number of the person who is calling you.
•Press the Play/Pause button to both answer and hang up the call. If you just are not too keen on answering that certain someone’s phone call, you can hold down the Play/Pause button for 3 seconds and the call will be ignored.
•Once you hang up/dismiss the call, your song will resume.

**WATERPROOF/DUSTPROOF: IP68**
What does IP68 mean?
IP stands for ingress protection. The IP system is a solid particle protection and water protection grading system. The 1st number is solid particle protection, rated (0-6). The 2nd number is water protection, rated (0-8). We uphold the best rating of solid particle protection (6). This means the speaker is fully dust proof. If you were to place the speaker in a box of talcum powder and stir the powder around for up to eight hours- the dust could not enter the speaker.

Like we said, The Barnacle is a creature of the sea and we designed this creature to endure any aquatic adventure you consider. The Barnacle upholds the highest rating of water protection (8)! - Capable of withstanding full water immersion.
•To be specific: A depth of two meters (6.6 feet) for up to 60 minutes

Note: We encourage you to bring this speaker with you on all your adventures. Don’t be afraid of some sand, mud, snow, or ocean water. For this reason, we have made the speaker real easy to clean. Use fresh water and a soft towel to wipe away dirt/dust.

**FCC DISCLAIMER:**
Note: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This device has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and radiates radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
•Reorient or relocate the receiving antenna.
•Increase the separation between the equipment and receiver.
•Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
•Consult the dealer or an experienced radio/TV technician for help.

Note: Changes or modifications not expressly approved by Speaqua Corp. could void the user’s authority to operate this equipment.
