

GRIP

01

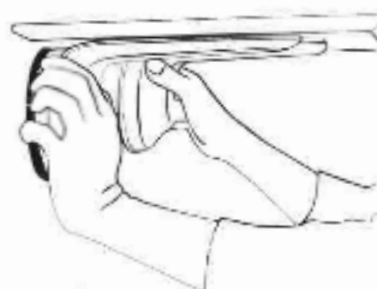

Grip the brackets with your thumbs on the inside, fingers on the outside, and levers resting against your palm.

PRESS

02

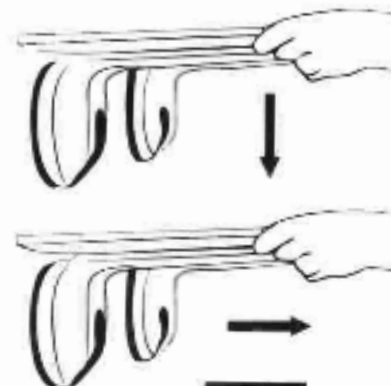

Press firmly against a clean, flat glass surface (see instruction manual for testing non-glass surfaces).*

SECURE

03

With your palm, press down the levers, one at a time. You should feel resistance as you engage the suction force.

TEST

04

Grab the working surface on each side --- Pull Down and then Pull Away from the glass to ensure secure suction. Re-test in 5 minutes.

*DeskView DOES NOT adhere to drywall, brick, cement, and other textured or painted surfaces. Max Load: 40lbs
