THE GROMMET

Susquehanna Glass Company

Sand Etched Latitude and Longitude Camp Mug

If you want to create personalized glasses, Susquehanna Glass Company is one of the best around. This third-generation operation has a 100+ year history of making etched glass in the USA.

Map out your allegiance to a location with their Latitude and Longitude design—a Grommet exclusive. All you need to do is choose the place, like your hometown or favorite vacation spot. They'll find the coordinates and sand etch them on for a clean, crisp finish. Another great use for these: a memorable gift for weddings (choose the nuptial's location).

If initials are more your thing, choose the hand etched monogram designs. Susquehanna hand cuts each by holding the glass against a rotating stone wheel. It's a sophisticated touch that looks timeless and will last for years.

This Grommet is a customized product made to order just for you. We're working on your gift right now, and production takes several days. We're sure you'll love it when it arrives.
