

Most of the latest iOS or major Android devices that have Bluetooth 4.0 or above will be compatible with the AirBolt. Below is a basic compatibility list.

VERSION COMPATIBILITY LIST.

iOS

iPhone

iPhone 5s and above.

iPad

with Retina Display & Later with iOS 10 onward.

iPod

The iPod Touch (5th generation) is equipped with Bluetooth Low Energy

Android

Most popular devices with Android 5 and later with Bluetooth LE.

NOTE: Some versions of Android are known to have Bluetooth issues, in which case the AirBolt may have trouble connecting. This is usually fixed by updating your Android version to the latest version.
