

ACROSS THE BOARD
PENNY HOCKEY

CONTENTS:

Game board, two chrome pegs and a penny

DIRECTIONS:

Youngest player begins the game by placing the penny behind their blue line and flicks the penny towards their opponent's goal with their finger. The penny **MUST** be flicked, **NOT** pushed. Each player is allowed to flick the penny **ONCE** per turn. If a goal is not scored, it is the opponents turn.

Keep score by using the pegs on either side of the board.

If the penny is flicked off the table, it is automatically the opponents turn and they begin by placing the penny behind their blue line.

If the penny is leaning in a goal it may be flicked out of the goal and off the board with no penalty. This counts as that person's turn.

If a player scores on their own goal the opposing player receives the point.

WARNING: Choking Hazard. Small Parts. Not for children under 3 years.
