

QUICK START GUIDE

1. Speaker
2. Hole for Lanyard
3. LED Indicator
4. Power Button
5. Microphone
6. Micro USB Charging Port

Getting Started

- 1. Hold down the Power Button**  until you hear a chime.
- 2. To connect Two Pets together**
Turn the Bluetooth setting off on your phone or other device, then turn both Pets on.
Choose one of the Pets to be the lead and double click the power button. You will hear a chime when the Pets find each other.
- 3. Go to Settings** on your phone or other Bluetooth enabled device and turn on Bluetooth.
- 4. Search for and select My Audio Pet** in your device options.
You will hear a chime as your Pet(s) connects.

Helpful Info

Charging your Pet: Use the included cord to charge the Pet. Your Pet will **chirp**, when the battery is critically low. A Red LED indicator glows when charging. The Pet is fully charged when the light turns off. You can use your Pet while it is plugged in to a power source.

Hold down the Power button to turn off your Pet(s):

If not connected to a Bluetooth Source your Pet will turn off automatically after 5 minutes of non-use.

Volume: Use the phone or other device connected to your Pet as primary volume control. When listening to music, a single click on your Pet will Pause or Play music. Double click to increase volume.

Selfie Function: When a camera app is open on your device (and your Pet is connected) you can double click the power button to switch your Pet into selfie mode. Once switched, click the power button to take photos. When done, double click to switch it back to audio mode.
