

ScentiGo™ Essential Oil Diffuser INSTRUCTIONS

PARTS

FEATURES

Natural Car Freshener:

- 5 mL Essential Oil included
- Empty 5 mL Oil Bottle included for convenient refilling of your preferred essential oil
- Three (3) Absorbing Rods included

CARE & MAINTENANCE

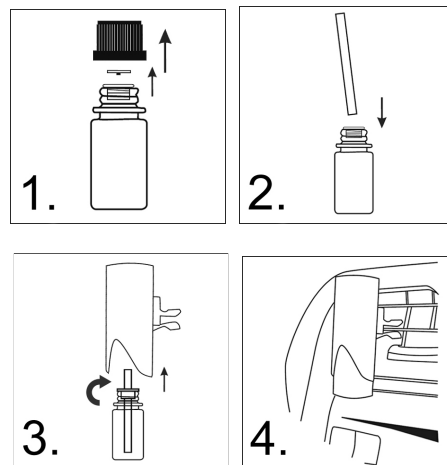

Use a new Absorbing Rod for each different essential oil.

Essential oil should not come in contact with the exterior surface of the Plastic Holder. If essential oil drips onto the Plastic Holder, wipe off immediately.

After approximately 90 days of use, dispose Absorbing Rod.

INSTRUCTIONS FOR USE

1. When using the Essential Oil (included), remove Cap and Reducer Plug and set aside.
2. Insert an Absorbing Rod directly into the oil bottle.
3. Insert the Oil bottle into the Plastic Holder by sliding upward and twisting into place.
4. Attach the Clip to your car vent in a vertical position.

NOTES:

1. When choosing your own essential oil, use the Empty 5 mL Blue Oil Bottle (included). Remove the Special Cap and Reducer with Plug from the Empty 5 mL Blue Oil Bottle and set aside. Fill bottle with your essential oil one-half full and replace the Reducer. Insert the Absorbing Rod into the oil bottle and follow Instructions 3 through 4 above.
2. The Special Cap included can be used to store the essential oil bottle with Absorbing Rod when not in use.
3. To store used Absorbing Rods, place in an airtight container or re-sealable plastic bag.
4. Visit sparoom.com to purchase additional Absorbing Rods.
