

Thank you for your interest in my product, the TIE MAGNET. It is an invisible tie stay that takes a functional approach in securing your tie.

There are two pieces inside the packaging, which is supposed to resemble your shirt and tie in respect of where the pieces should go.

The two pieces, as to the left, are the components of the Tie Magnet. The clip attaches to the tie keeper loop, or the tie label (fig.1). The bar, with magnet, slides on the placket of the shirt (fig. 2). They connect to make strong connection (fig. 4), and allow you to remove easily, if needed for a brief period of time.

It is put on in the following order:
