

Selk'Bag Sizing – Adult

A proper fit is essential to fully enjoying all the Selk'bag has to offer. Please note, that the sizing recommendations are meant for people of average weight and sizing is impacted by user weight. For example, a Selk'bag will fit a person of below average weight with a taller frame that exceeds the guidelines. Likewise, a person of above average weight will require a bag meant for someone taller.

In-between sizes? Please first consider the weight recommendations in the previous paragraph. Second, please understand that a looser fit is better for more comfortable sleeping, while a tighter fit is better for mobility - but may restrict sleeping comfort if booties are left on.

We always recommend to size up if you are not completely sure. It's better to have a little bit more room while using your Selk'bag!

Size Small:

Fits up to 4'11" / 150 cm tall

Size Medium:

Fits up to 5'5" / 165 cm tall

Size Large:

Fits up to 5'11" / 180 cm tall
